DURAMAX™ LANE CARE PRODUCTS • INSTA-GRIP™ TRACTION STRIP  
ULTRA-BUFF™ POLISHING COMPOUND

# LANE CARE PRODUCTS

For over 20 years, we have been developing and manufacturing lane care products for the bowling industry. Recently, we decided to launch a high performance line of lane care products and put our own label on the market – DURAMAX™. The DURAMAX™ product line includes 3 items to keep your conditions consistent from game to game: Versatility™ Lane Conditioner, OxyShock™ Lane Cleaner Concentrate, and MagnaGlide™ Approach Conditioner.

**DURAMAX**

## OxyShock™ Lane Cleaner Concentrate

5316-05	OxyShock™ Lane Cleaner Concentrate (2-2.5 gal)
---------	--

- A powerful lane cleaner concentrate formulated with degreasing agents to break down oil and strip away grime and dirt with the cleaning power of oxygen.
- Does not leave slippery residue on the backend like some other cleaning products. The results are squeaky clean.
- 16:1 dilution ratio, requiring only 1 part concentrate to 16 parts of water. Ratio may be adjusted to meet the specific cleaning needs of any bowling center.
- An environmentally responsible cleaner - biodegradable, phosphate-free, and VOC compliant.
- Available in 2.5 gallon bottles, packaged 2 per case.

**DURAMAX**

## Versatility™ Lane Conditioner

5429-05	Versatility™ Lane Conditioner (2-2.5 gal)
---------	---

- A high lubricity 100% solids conditioner designed to provide maximum durability with less oil on the lane surface. The result is less oil consumed and a more consistent shot from game to game.
- Contains flow-enhancing additives that allow the lane dressing to self-level behind the ball as it goes down the lane.
- Versatility is designed for use on all lane finishes, synthetic lanes, and protective lane surfaces.
- While developed for use in wick-less lane machines, the 29 viscosity Versatility™ formulation has also proven successful in wick machines.
- Available in 2.5 gallon bottles, packaged 2 per case.

**DURAMAX**

## MagnaGlide™ Approach Conditioner

5201-192	MagnaGlide™ Approach Conditioner (6-32 oz.)
----------	---

- Reduces friction on the approach and improves shoe slide.
- Conveniently packaged in 32oz. spray bottles so no refilling is necessary.
- Each case includes 6 bottles of DURAMAX™ MagnaGlide™.

# MISCELLANEOUS SUPPLIES

We are confident in the performance of Tech-Line supplies so we guarantee 100% satisfaction. That means you can try any product virtually risk-free. If you are not completely satisfied, you can return any item within 30 days of purchase to receive a credit equal to the purchase price. We are not satisfied until you are completely satisfied.

## UltraBuff™ Ball Polishing Compound

5106-05	UltraBuff™ Ball Polishing Compound (2-Pack)
---------	---

- Features a hybrid blend of wax and polishing compounds. This technology produces an ultra high gloss on any type of bowling ball.
- Designed for maximum compatibility. Can be used in virtually all polishing machines.
- Each case contains 2 blocks of polishing compound.

*"Not only does UltraBuff™ do a great job polishing, but it also gives the ball a little more skid-snap reaction. I have started using it on my own equipment with very good results and our customers are very happy also."*

~ Rich Orf (Ray Orf's Pro Shop)

## Insta-Grip® Ball Wheel Kicker Strip

5105-05	5-foot Insta-Grip® Kicker Strip
5105-10	25-foot Insta-Grip® Kicker Strip

- The self-adhesive Insta-Grip® ball wheel kicker strip can be applied and the pinsetter returned to operation in less than 5 minutes.
- Convenient self-adhesive strips have a peel-off backing.
- The high friction urethane contact area will solve ball spin problems.
- Available in 5-foot and 25-foot lengths and can be modified to meet the traction needs of each pinsetter.

## Insta-Patch™ Kit

1310-05	Insta-Patch™ Kit
---------	------------------

- Allows for fast repair of scratches, nicks, and gouges in ball surfaces.
- Extremely impact resistant when cured and exhibits excellent adhesion to all ball surfaces.
- Repairs long scratches in one application without running, even on non-horizontal surfaces.
- Cures in about 1 hour at room temperature, and in about 5-10 minutes with an external heat source.
- Compatible with ball plug tints and pigments in small amounts.
- 4:1 ratio of resin to hardener.
- Each 15-ounce Insta-Patch™ Kit will repair approximately 60 bowling balls.
- The Insta-Patch™ Kit includes one 12-ounce resin, one 3-ounce hardener, 50 graduated mixing cups, and stir sticks.

## Tech-Line Oil Wicks

5012-05	Tech-Line Standard Oil Wick
5012-06	Tech-Line High-Flow Oil Wick

- Replacement oil wicks provide great value quality products available at a competitive price.
- Wicks are 36 inches in length and can be modified to meet the sizing requirements of your lane machine.
